Combining my Industrial Engineering background and a degree in Graphic Design, I have united my skills and passion. As an engineer, I feature accuracy, planning, and comprehension skills. As a designer, I exhibit my aesthetic and creative vision. My perceptiveness allows me to deliver functional and appealing solutions for particular needs.

SKILLS

CREATIVITY • Insightful approach to problem solving through beautiful designs. Understanding of upcoming trends and global concepts.

TIME MANAGEMENT • Prioritization of tasks and deadlines. Able to juggle multiple projects. Ability to arrange resources that promote a smooth workflow.

LEADERSHIP • Effective communication and respectful approach to team members. Accountability and positive energy in the workplace.
